

designed for veterinary surgeons with an interest in working at Horse Trials/Three Day Event competition during the Three Day Event at Hartpury College, allowing a course walk and discussion of the theoretical and practical aspects of this type of work. The course will focus on the cross country phase of the event over a range of areas from preparation prior to the competition, treatment of injuries or accidents to the competition and treating specific conditions after the competition. Afternoon practical sessions are designed to complement the morning lectures as well as to allow discussions of some potentially difficult situations.
